Hi Everybody,

I'm Hiro Liu. I finished the first volume of the webcomic, Modern Life of the Immortals early this year and started working on the second volume. I wish to translate the second volume to more languages than English.
I understand there is a dramatic difference between Chinese culture and western.
I'm sincerely looking for volunteers who are willing to help me on the translation and localization.
Please visit my Indiegogo page and Facebook page for more information. And you can email me at teamnow-do.com anytime.
